2/15/69

Dear Jerry,

Relet 2/13, thanks for the various-

On the book, it has two values: immediately, for possible use re N.C., and there is no chance special ordering would locate in time for such use; and historically, for it is the closest thing we can get to a transcript of what NBC aired. This second avlue is not sufficient for the expenditure of any unusual sum. If and when one shows up, that will then be fine, but do not pay the extra tariff.

I have a borrowed copy of "There Was A President", which has some pix and a contracted transcript.

Hurriedly,

Thanks,
